Seminar on

Interview skill and Grooming

The department of commerce and Management had organized seminar on Interview skill and grooming for the students of BBA, B Com & M Com which was held on 25 February 2022.

The invited guest were Past president of JCI Mr Anil Munot, Akshay Kabra Secretary JCI, Ms. Asra Mirza, trainer JCI Amravati Branch. The object behind the session was to enhance the interview skills of Students and to get them prepared for interview which they are going to face in future.

During the session Past President of JCI Mr Anil Munot guided the students by sharing his experiences. Ms. Asra Mirza trained the students by explaining them about the Preparations required for facing the interview.

Before going for an interview the candidate should research the employer where they are going to face the interview regarding the business, area of work, important factor of organization, corporate culture and work atmosphere over there etc.

On the day of interview the candidates should reach on approximate time before the scheduled time, one should carry all the original document, certificates, résumé etc with proper dressing.

She also guided them on SWOT analysis and one should give the importance on knowing their own strength and weakness.
Later she discussed about the Physical appearance of candidate that one should be in a formal wear it may be Indian or western, the candidate should be comfortable in it. One should avoid the bright color dress, heavy makeup, high heels for girls, Boys should take care that shoes are polished, dress is properly Ironed etc

During the interview the candidate should be confident with positive Mind set about interview and humble with interviewer. Try to give the reply positively to the questions asked by the interviewer. Interview should be interactive and not just responding to the question asked. One should have a gentle smile on their face throughout the process one should be seated comfortable and maintain the eye contact with the interviewer.

The session was interactive and very helpful for student. The session hadbeen very supportive for the students to get them prepared for facing the interviews. Ms Asra Mirza replied to the question raised by the student.

Principal Dr.D S Dhote provided all the means to arrange the seminar. Mrs.M.A.Bhuptani organized the guest lecture under the guidance of Dr. N.J.Honrao, Head, Dept of Commerce and Management. Workshop on Group-Discussion

A "Workshop on Group Discussion" was organised by the Career and Counselling Cell on June 2, 2022 in the college auditorium from 4.00 pm to 6.00 pm. This workshop was organised for the final year and the post-graduate students of the college. This activity was organised in collaboration with the ICAI Amravati Branch. CA Sapna Mudwani, the resource person gave the dos and don'ts of group discussion. She guided students on their grooming, body language and other care to be taken while going for group discussion. CA Vishnukant Soni, President of WICASA and CA Mohit Ganeshani also guided the students. The students were divided into various groups and a mock group discussion was conducted. CA Sapna Mudwani, CA Vishnukant Soni, CA Mohit Ganeshani and Dr. Shaila Nibjiya monitored and observed the performance of the students and according to that input was given by the team for the better performance of the students. Total 34 students participated in this workshop. Before the vote of thanks, students also gave feedback, and expressed what they learnt from this workshop and how it was beneficial for them. This workshop was organised by the co-ordinator of Career and Counselling Cell, Dr. Shaila Nibjiya.

STUDENT INDUCTION PROGRAM

Date: 22nd to 25th November 2021

REPORT OF LITERARY ACTIVITY

Literary activity was conducted every day. The aim of this activity was to make learning a fun. There are many things which were taught to the students through various games and activities. The object of literary activity was to inculcate among students a love for language and enhance their literary skills, to encourage students become orators, to display their intellectual and independent thinking skills and imbibe a sense of confidence. Various activities were planned to encourage students participation.

Day 1: Activity 1: Synonyms and Antonyms - 20 words were given to the students and they were asked to write synonyms and antonyms of the same.

Activity 2- SWOT Analysis: Students were explained what is SWOT analysis and how it is to be done. Then the students were asked to do their own SWOT analysis. This helps the students know their strengths, weaknesses, opportunities and threats so that they can work on themselves and overcome their weaknesses.

Day 2: Activity 1: One word substitute. The aim of one word substitute is that it is beneficial in report writing with appropriate words. It also teaches to give information precisely.

Activity 2- Translation Game: The objective of translation activity was to make the students familiar with local language and Hindi language.

Day 3: Activity 1- Jumble words. In this activity some words were mis-spelled and the students had to write the correct spelling. This activity aims to increase the focus of the students.

Activity 2 - Puzzle: Some alphabets we're randomly written on the page in a box. Students had to form words from the alphabets.

Activity 3- Number writing in Hindi Or Marathi. Students were given numbers in English and they had to write the spellings of same number in Hindi Or Marathi.

Day 4: Book Review: To inculcate reading habit in the students, to enhance their public speaking skills, to improve their presentation skills. Students were given information about this activity the very first day that they have to read one book and present it review in front of the batch.

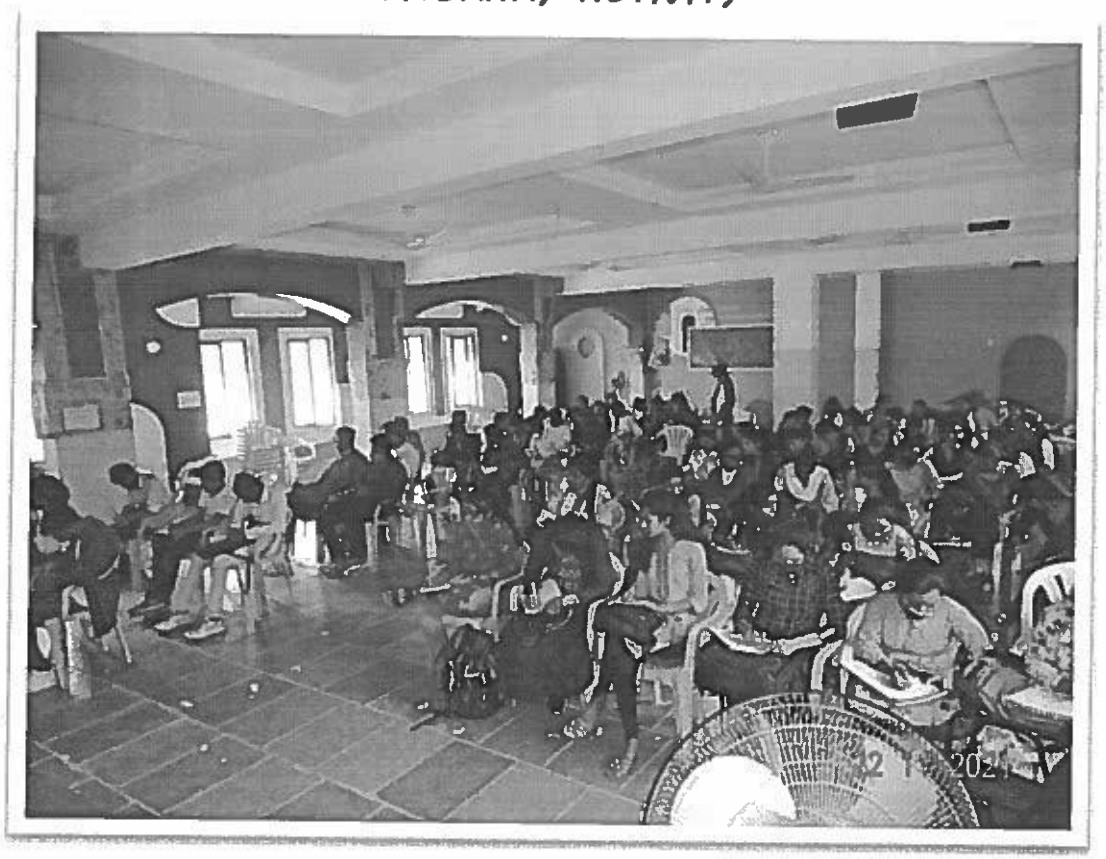

Benefits of Literary Activity: •Learn with Fun• Create awareness to be responsible citizen• Inculcate reading habits• Willingness to learn new things, words and language • Become familiar with English, Hindi and regional language • Develop

Analysis of various milk samples for detection of adulteration in milk is carried out. Various tests done for detection of adulteration in milk is Detection of Neutralizers in milk, hydrogen peroxide, formalin, sugar in milk, starch, urea, salt, pulverized soap, detergents in milk, skim milk powder in milk, benzoic and salicylic acid in milk. Milk samples analysed and report of analysis of various milk samples for various test is done for detection of adulteration in milk. Detection of adulteration in milk and its analysis from different milk samples will help to optimise analysis of dairy products - from improving quality and safety of raw milk and other material, through to milk standardisation and verification of end products.

Milk can be adulterated in any step before processing as well as during processing and before packing by adding water, reagents and prohibited neutralisers like hydrated lime, sodium hydroxide, sodium carbonate or sodium bicarbonate are added to milk to prevent spoilage. The longevity of milk increases and gives the vendor that much time to sell. Reagents like salt and glucose are added to alter the thickness and viscosity. Adding starch prevents curdling of milk. Salt and detergents are added to adjust the lactometer reading to add thickness to the milk. Therefore it is essential to detect adulteration in milk.

Bioelectrical impedance analysis method involves determination of Body Weight, Body Fat Percentage, Segmental Subcutaneous Fat Percentage (Whole Body, Trunk, Arms and Legs), Visceral Fat percentage, Segmental Skeletal Muscle Percentage (Whole Body, Trunk, Arms and Legs), Resting Metabolism, Body Mass Index and Body Age. Results are interpreted in terms of ideal weight, overweight, underweight, Period required for weight Loss / Gain at the rate of 1.5 kg per month, Period required for wt maintenance, Fat %, Subcutaneous Fat % (Trunk), Visceral Fat %, Skeletal Muscle % (Whole body), RM, BMI, Body Age. It also highlights correct weight reduction and instructions for better health improvement and weight loss, weight gain and weight maintenance programme.

For ideal weight management and for a more accurate and precise body composition analysis full Body Sensing Technology Karada Scan Body Composition Monitor – HBF-375 is used which measures body composition- Body Weight, Body Fat Percentage, Segmental Subcutaneous Fat Percentage (Whole Body, Trunk, Arms and Legs), Visceral Fat percentage, Segmental Skeletal Muscle Percentage (Whole Body, Trunk, Arms and Legs), Resting Metabolism, Body Mass Index and Body Age. The general principle behind bioelectrical impedance analysis is that two or more conductors are attached to a person's body and a small electric current is sent through the body. The resistance between the conductors provides a measure of body fat between a pair of electrodes, since the resistance to electricity varies between adipose, muscular and skeletal tissue. Fat-free mass (muscle) is a good conductor as it contains a large amount of water (approximately 73%) and electrolytes, while fat is anhydrous and a poor conductor of electric current.

PHYSICAL ACTIVITY:-

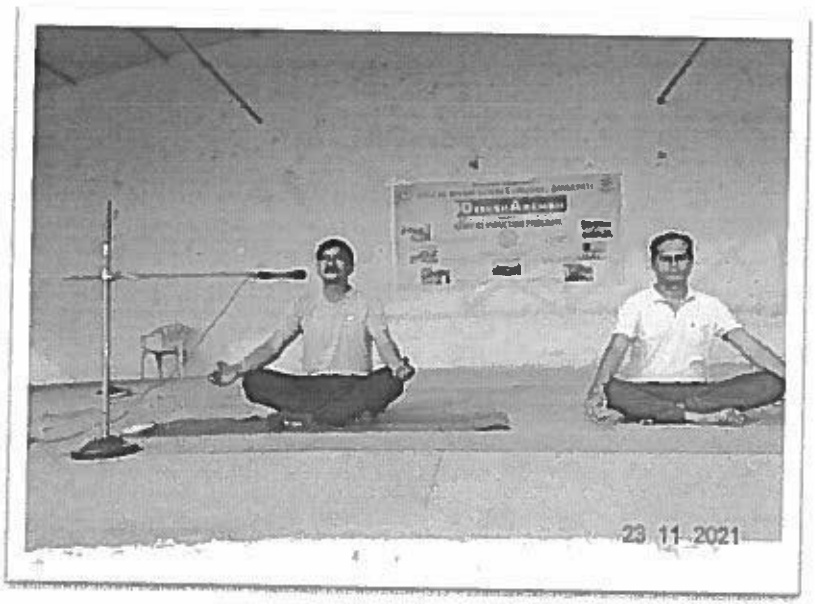

To start a day with energy and enthusiasm a physical activity was taken daily for all three days at 7.30 am. In order to maintain once physical and mental health. Yoga was taken for all 10 batches by the winner of Vande Matram Yog Spardha, gold medalist and Yoga trainer Mr. Manish Deshmukh, who is also famous for doing 80 mins yoga in water at HVPM during Yoga day. He taught the students Pranayam, Meditation, Suryanamaskar and various types of Yogasanas in a very simple way. He also explained the importance of doing Yoga daily and motivated students to make it as an important part of their life.

Thus by participating in Physical activity the students learned the importance of yoga and were motivated to make it a part of their daily routine of life.

This activity was taken by following the Covid-19 protocol of social distancing and was supervised by physical activity leaders Dr. V.V. Vaidya , Mr. M.V. Patmase and other faculty Batch mentor faculties.

REPORT

PREAMBLE:

The goal of higher education is to nurture human beings responsible for their betterment and capable of sustaining society and nature, besides enabling them to procure a position to earn their livelihood· To improve the understanding of the incoming undergraduate students about life, goals of educational institutes, as well as higher education, UGC has given the guidelines to cover these areas· The purpose of Deeksharambh - Student Induction Program is to help new students to fine-tune and feel comfortable in the new environment of the institution and built bonds with faculty member and other students, so that they can quickly blend in the new environment and understand institutional policies, processes, practices, culture and values as soon as they come into the institution, before starting their regular classes· Student induction program also helps the new student to expose them to a sense of responsiveness and help them to identify the skills among themselves by self-exploration by involving in various activities· The larger purpose of student induction program is to develop ones personality·

So, to serve this purpose of Deeksharambh, Brijlal Biyani Science College has organized a Student Induction Program (SIP) as per UGC Guidelines from 22nd to 25th November 2021 for first year students of all five degree programs of the college· The one week student induction program was organized in offline mode for fully vaccinated and in online mode for partially, non-vaccinated and below 18 year first year students by the college from 22nd to 25th November 2021· (Four days)·

Mental Detox:

In today's society, students face many distractions and stressors: Constant news and social media feeds alone keep their mind preoccupied and distracted from what matters most - their goals, carrier, opportunities, etc· A mental cleanse can help focus their body, mind and spirit to make deeper connections with their goals and their faith· While detox diets are popular for recalibrating your body and getting back on track physically, you should also consider doing the same for the mind· A mental cleanse can be a great way in clearing the mind to help in finding better focus and balance in life·

Keeping this in view, Dr· Prachi Agrawal, Assistant Professor and Head, Departme[illegible]ithematics, Brijlal Biyani Science College, Amravati and a

HEALTH AND HYGINE:

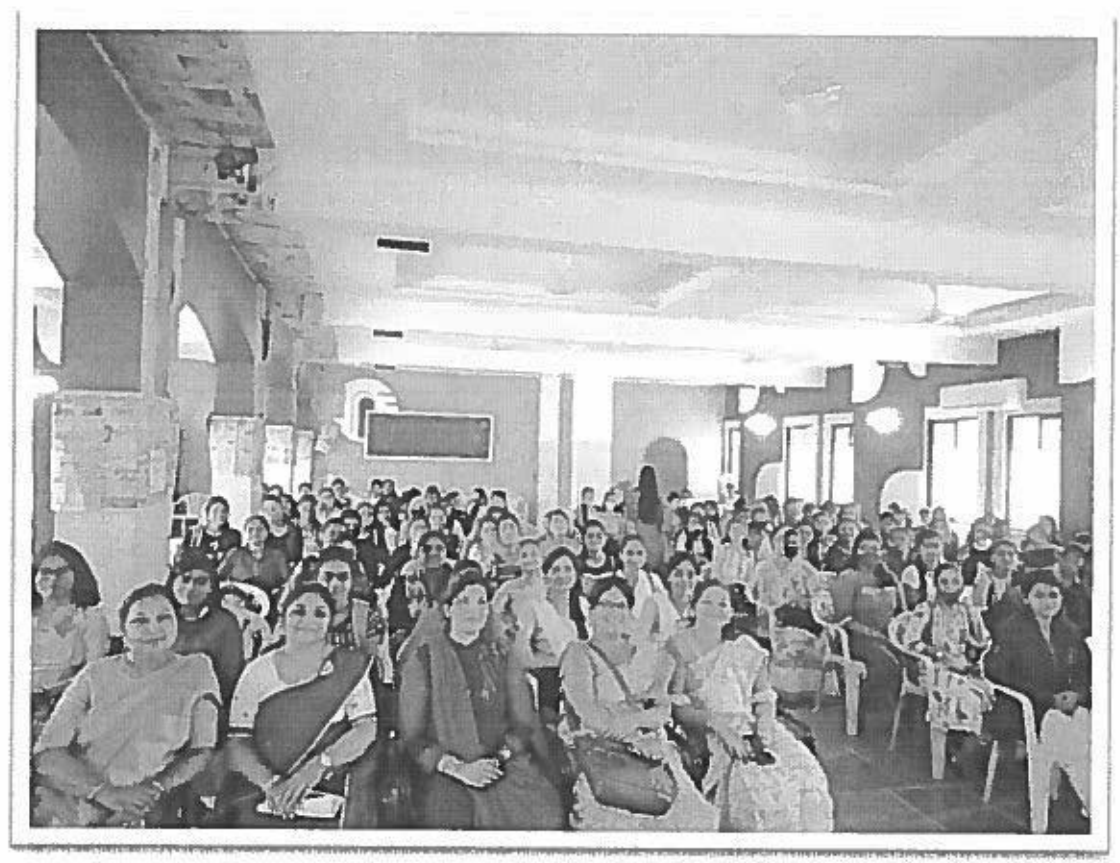

Girl's education is like sowing the seed to raise the green plant of a charming full grown family which bears fruits· Today's adolescent girl is the future mother· Cleanliness and hygiene are the qualities of women, but still education in health and hygiene management need an urgent attention· Studies that exist indicate that among the adolescent girls knowledge and awareness regarding hygiene are poor practices· Cleanliness in college premises is equally important in the context of creating safe and hygiene environment in college· If such awareness is carried out during their college life it proves to be very useful in their day to day life, So in this regard an interactive talk on health and hygiene was held on 25th November 2021·

Dr· R· R· Laharia guided students about the ways to increase haemoglobin nutritionally and combat Anemia, she also asked the student to maintain discipline and cleanliness not only while in college campus, but also to make it a practice of all time· After her talk Dr· S· R· Kadu guided girl students about hygiene management especially during the menses· She gave information about instruments i·e incinerator and vending machines available in college, installed in girl's common room· She also gave instruction about how to operate these instruments· Thus, discussion and orientation on health, hygiene, and physiological knowledge related to it helped the students to maintain cleanliness in common room, college campus as well as personal hygiene·

DRINKING WATER ANALYSIS – YEAR 2021-22

Physico-chemical analysis of drinking water samples from different regions of Amravati was done on 16th December 2021 for M.Sc. II (Sem III) students

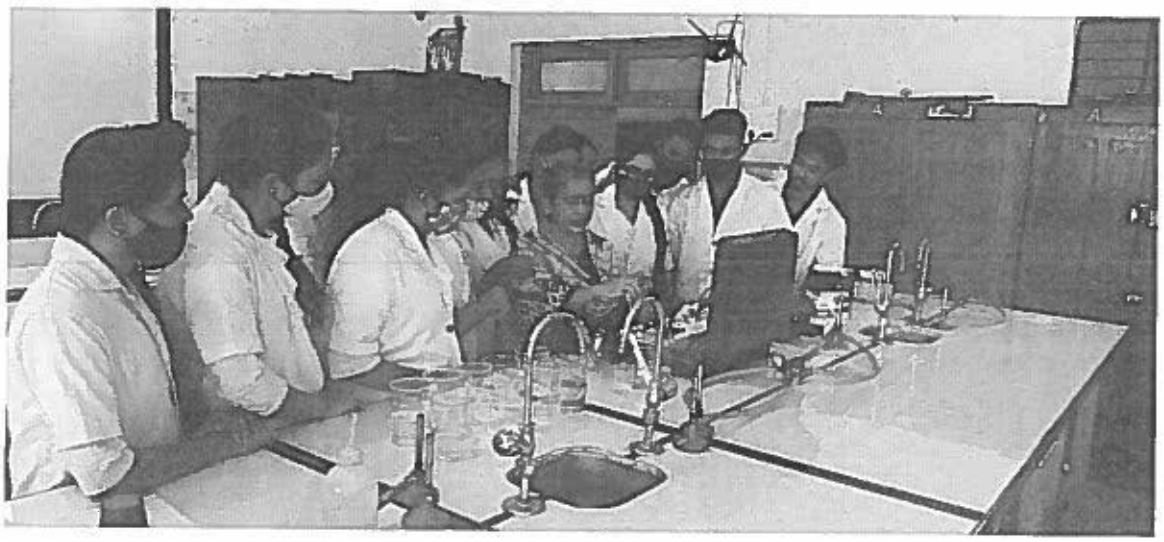

The drinking water samples were taken from the main water sources where maximum peoples were using them for drinking purpose. Measurement of Temperature, pH, Conductivity, Total Dissolved Solids (TDS), Salinity, Turbidity and Dissolved Oxygen was done by Digital Water and Soil Analysis kit Labtronics Model-191E-an ISO 9001.

Following 27 students participated in Drinking water analysis of various samples of Amravati region done on 16th December 2021.

Desirable limit of drinking water for various parameters are Temp 25°C, pH 6.5-8.5, Turbidity 5 NTU, Colour 5 Hazen Units, Total Dissolved Solids 500 ppm, Salinity 100 ppm, Dissolved Oxygen 3 ppm and above, Most of the water samples were within WHO/ ISI standards. For samples which do not have physico-chemical parameters within desirable limit, treatment for correction of corresponding parameter is to be done.

The results of the present analysis showed that drinking water collected from different areas of Amravati was found to be suitable for human health. It is recommended to boil water, use aqua guards, proper chlorination, use efficient system for garbage collection and its disposal, sewage waste treatment, recycling of waste into useful products such fertilizers, education of people through media about the causes and consequences of water pollution.

Report

on

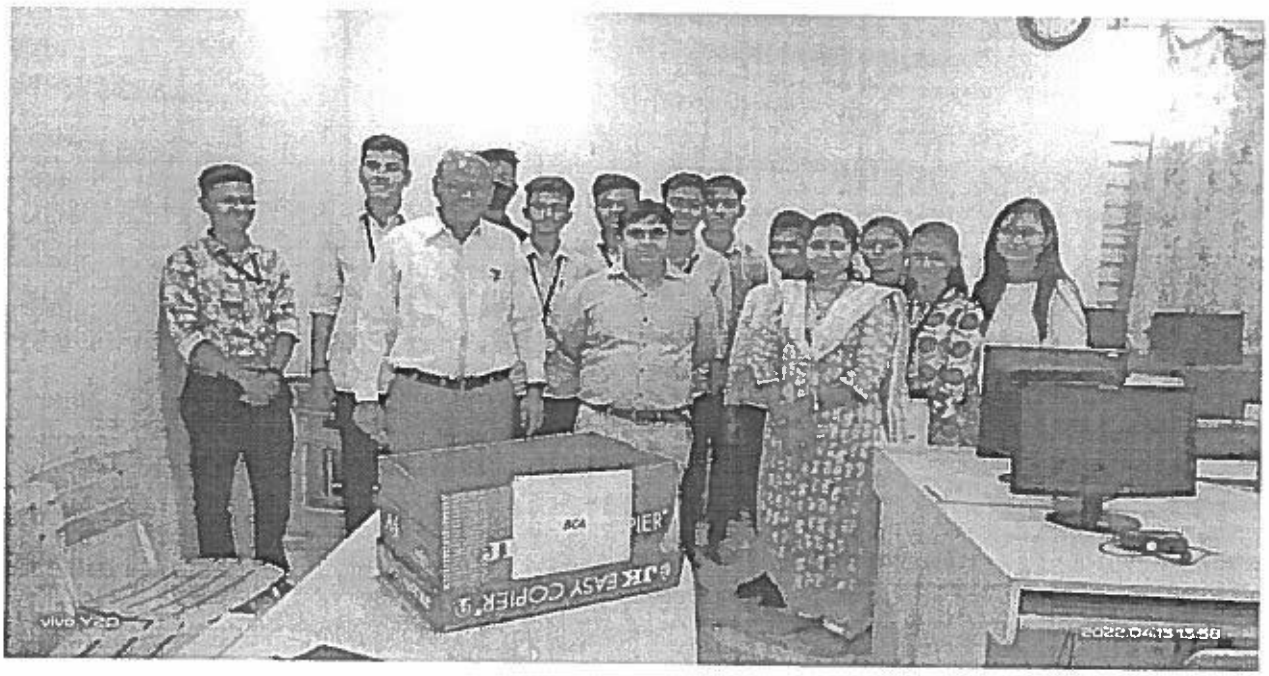

"E- Waste Management "

E-waste is any electrical or electronic equipment that's been discarded. This includes working and broken items that are thrown in the garbage or donated to a charity reseller like Goodwill. Often, if the item goes unsold in the store, it will be thrown away. E-waste is particularly dangerous due to toxic chemicals that naturally leach from the metals inside when buried.so one must properly dispose such electronic waste.

Department of B. C. A. arranged E-waste collection activity for B. C. A. I, II and III students, under the computer Application society. This activity leader was Mr. Jayesh Umate, joint secretary B. C. A. II student. Activity incharge was Mr. K.K.Tiwari, Asst. coordinator B.C.A. department.

E-waste was collected in computer laboratory of the department.

After collection it was donated to charity reseller

Recycled Paper Bag Workshop and Distribution of recycled Paper Bag to medical shop keeper, Vegetable seller and Fruit seller for B.Sc. III (Sem VI) Chemistry Students

Dr (Ms) S. N. Gupta has taken extension activity 'Recycled Paper Bag Workshop and Distribution of recycled Paper Bag to medical shop keeper, Vegetable seller and Fruit seller' for B.Sc. III (Sem VI) Chemistry Students on 22nd February 2022 for CBZ, PCM Batch and on 24th February 2022 for BTB, BTZ Batch at Brijlal Biyani Science College, Amravati.The sole reason of undertaking this workshop was to make students understand the harm caused due to plastic bags and to encourage them to replace plastic bags with paper bags. In this workshop students were taught how to make 5 different types of paper bags and different articles such as Coaster, Pen Stand, Basket, Dustbin etc. out of newspaper.

- In this workshop students learn how to make paper bags and different articles out of newspaper.
- The students made paper bags out of newspapers. Afterwards they signed it with their name and message.
- Each student has made 5 paper bags of each type and they distributed them in medical shop, vegetable seller and fruit seller nearby college thereby they spread the message of 'Say No to Plastic'.
- Students not just learned the art of making a paper bag, they also learned the importance of recycling and how it can benefit everyone.
- The things that students learned will be taught to the people living in slum areas.

NOTICE

Recycled Paper Bag Workshop

For B.Sc. III Chemistry Students

This is to inform all the B.Sc. III Chemistry Students of Brijlal Biyani Science College that a paper bag making workshop will be organised for CBZ and PCM Batch on 22nd February 2022 (Tuesday) from 11 am to 1 pm and for BTB and BTZ Batch on 24th February 2022 (Thrusday) from 1 pm to 3 pm in Room No 408 of our College. The training will be given by Dr (Ms) S. N. Gupta, Professor, Chemistry Department, Brijlal Biyani Science College, Amravati.

Students have to bring News Paper, Paper Cutter, Fevicol, Scale, Scatch Pen. Sutali, Blank Paper

- **The sole reason of undertaking this workshop is to make students understand the harm caused due to plastic bags and to encourage them to replace plastic bags with paper bags.**
- **In this workshop students will be taught how to make paper bags and different articles out of newspaper.**
- **The students will make paper bags out of newspapers. Afterwards they will sign it with their name and message.**
- **Each student has to make at least 5 paper bags and have to distribute them in grocery stores in their vicinity thereby spread the message of 'Say No to Plastic'.**
- **Students will not just learn the art of making a paper bag, they will also learn the importance of recycling and how it can benefit everyone.**
- **The things that students will learn will be taught to the people living in slum areas.**

WOMEN HEALTH CAMP

Blood Group testing and Hb Counting Activity for Girls'

For the welfare of girl students', it is decided to organize Health Checkup camp for the **girls' students of I[st] year** under **Women Health Camp** in collaboration with Department of Zoology, Indian Women Scientist Association & Women Development and Gender Equality Cell.

So, all the students of I year (B. Sc., B.B.A, B.C.A, B.Com) are here by informed to visit the Zoology department on 3/3/22 and 4/3/22, at 3.00 pm and take the benefit of the same.

Incharge,

Women Health Camp for Haemoglobin (g/dl) and blood groups of girls
(Iron^{+} initiative)

Goal:

To create awareness regarding hygiene and cleanliness among the students

The Context:

Anemia poses a major threat to girls of age group 15 to 25. It contributes lowered resistance to infection, poor cognitive development, fatigue and skin paleness, shortness of breath, fast irregular heartbeat, low blood pressure, headache, poor memory, and difficulty in thinking, cold hands and feet and decreased work productivity. To combat with this burning problem in the girls, Iron^{+} initiative program was initiated as a pilot program for newly admitted girls in Brijlal Biyani Science College, Amravati from the year 2010-11.

The Practice:

In the year 2021-22 also the, Iron^{+} initiative program was carried out. The newly admitted girls of the college were advised to carry out blood tests especially for the blood group and the Hb content to know their anemic status as hemoglobin concentration is a widely used as measure of anemia. The blood analysis is carried out by Dr. R.R. Laharia and the results were analyzed. There are total 242 girl students of B.Sc. and B.Com I year in our college out of which around 74 number of students were analysed for Hb gm % and blood grouping.

Hb and Blood Group Analysis:

Materials and Methods: Materials and Methods: Hb count of B.Sc I year girl students was done by a standard method of Sahli's method and blood grouping was done by using Standard anticera. All the precautions which must be taken at the time of dealing with blood experiments were taken. Only disposable pricking needles were used for every individual. A camp was organized to guide these students under the proper guidance of a medical practioner. For this a form consisting of all the details of that particular student including cleanliness, menstruation details and health problems were collected before the camp for the pre-information.

A camp was organized, in the camp in which Dr. R. R. Laharia guided the student about importance of haemoglobin, as well how to keep their Hb gm% normal by eating nutritional food and importance of other vitamins and even calcium to stay healthy. They were also asked to maintain their cleanliness especially to keep their nails clean along with checking their Haemoglobin.

The results indicate that out of 74 students, 42 students were found to be severely anaemic.

The blood groups of the students were found to be in order O +ve > B +ve > A+ve and AB+ve , whereas none of Rh-ve,was found.

Number of Beneficiaries:

S. No	Year	Total number of girls of B.Sc. I, year in college	Total number of girls analyzed for their Hb gm%	Total number of girls analyzed for their Blood groups	Total number of girls found Anaemic	Total number of girls attended camp and took the benefit of medication	Total number of girls showing increase in their Hb gm % after 2-3 months of medication (camp)
1.	2021-22	242 B. Sc. &B.Com	74	74	42	31	16 out of 18

Social Activity:

During the process other details about their eating habits other inquiries were made It is found that girls are generally unaware about the cause of lack of concentration, weakness and fatigue as well many of the don't know their blood group. Even they had a habit of eating the junk food rather than the nutritional one.

During the free medication camp the guidance regarding importance of healthy eating habits and Vitamins, and even calcium to stay healthy was given and students were asked to maintain cleanliness, good health and hygiene along with the checking. From all the above observations it was found that there is a need of creating more awareness about the eating habits among the girl students. As the conditions became normal since the month of February 2022, So a second free medication camp was taken this year on 27/5/22.

Evidence of Success:

It is Concluded that 41.89% girl students were severely anaemic which might result into less score in the examination as they get exhausted at early and cannot devote much time on studies. It was personally observed that they cannot attend the classes with much concentration and energy. From all the above observations it was found that there is a need of creating more awareness about the eating habits among the girl students, as they are having a habit of eating the junk food rather than the nutritional one. The post interaction with the students indicates that, the students are well aware about the importance of haemoglobin in life and how keeping haemoglobin normal is essential for concentration in studies and to do well in life. And can be said as benefit of the iron+ initiative program. No correlation was seen between the weight and haemoglobin content.

The students were asked frequently to stop eating fast food and take nutritional diet, which will help them to be healthy and fit, which helps them to understand the importance of eating healthy food.

'I ve'

Problems Encounter:

Students were not much aware about anaemia and were very much afraid to get pricked by the needle and the impact of covid-19was still seen as the number of students coming for the camp was very less.

Resources required:

a. Sahli's method
b. Standard anticera.
c. Disposable pricking needles
d. Proper guidance of a medical practioner
e. Support from college

Sources for sources:

All the material and medication was funded by the College.

Suggestions:

Next year the same activity will be repeated to know the Hb contents in the blood of new students of I year of the college in order to create awareness among the newcomers in college and initiate the Iron+ initiative program among them.

Recycled Paper Bag Workshop of M. Sc. I and II Chemistry Students
Extension Activity - Year 2021-22

Recycled Paper Bag Workshops was organised by Dr (Ms) S. N. Gupta, Professor, Department of Chemistry for M.Sc. I (Sem II) and M.Sc. II (Sem IV) Chemistry Students at Brijlal Biyani Science College, Amravati on 7th April 2022. Distribution of recycled Paper Bag by M.Sc. I (Sem II) and M.Sc. II (Sem IV) Chemistry Students was done on 13th April 2022 to medical shop keeper, Vegetable seller and Fruit seller.

The sole reason of undertaking this workshop was to make students understand the harm caused due to plastic bags and to encourage them to replace plastic bags with paper bags. In this workshop students were taught how to make 5 different types of paper bags and different articles such as Coaster, Pen Stand, Basket, Dustbin etc. out of newspaper. Total 20 students of M.Sc. I and 27 students of M.Sc. II were present.

To,

Dr. Pankaj Nagpure,

Associate Professor,

Department of Physics,

Shri Shivaji Science College,Amravati.

Subject: Invitation for delivering Guest Lecture in Workshop on Virtual lab in Physics .

Respected Sir,

We at our institution are very pleased to invite you as a Guest Speaker to address our students. Due to Pandemic , Virtual teaching and learning environment is developed .To Conduct various experiments without any constraints to place or time , Virtual Lab is most important Tool So, we request you to address our students in the Workshop on "Virtual Lab in Physics". Your lecture regarding this will highly enlighten our students in performing experiments virtually.

The Workshop will be on **29th October 2021 at 12:00** through virtual platform on Google meet .

The honor of your presence is requested for a Workshop on "Virtual Lab in Physics" .

Thanking you with warm regards,

Dr. D. S. Dhote

Report
on
"Hands On Practice On RaspberryPi Kit"
Date: 31st December 2021, 1st January 2022 and 3rd January 2022

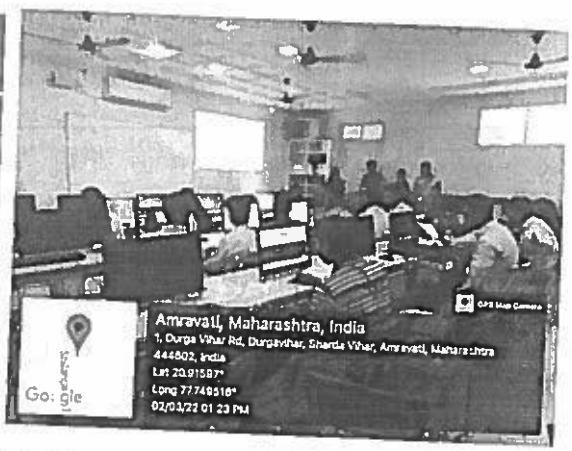

Department of Computer Science was organized three Days Workshop for B.Sc.(Computer Science) and B.C.A. Students on **"Hands On Practice On RaspberryPi Kit"**on dated 31st December,1st January 2022 and 3rd January 2022 at 1:00 pm to 2:00 pm.

Ms.S.V.Muddalwar and Mr.Shahid Ahmad ,Brijlal Biyani Science College, Amravati was trainer. Dr. V. S. Tondre HOD, Department of Computer Science and Ms. V. V. Thakare Assistant Coordinator was present. In these lectures total 236 students were participated. They covered the practical purpose of performing C,C++ and Java Programs in Raspberry Pi Environment.

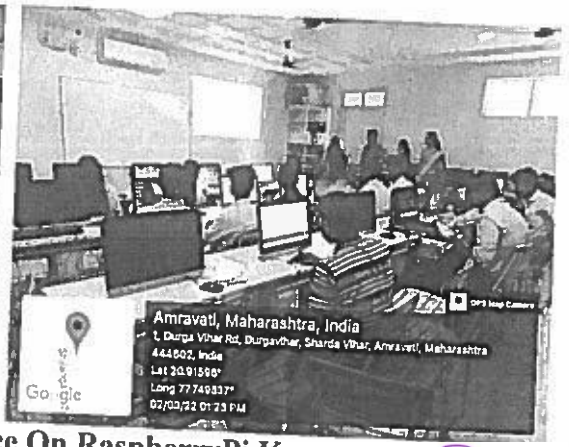

It was syllabus-oriented sessions to students. Students understood all the concepts of handling RaspberryPi kit,performing programs in C,C++, java envirnment,comands related with that as well as navigation and file handling inRaspberry operating system .

To organized the Guidance Dr. V. S. Tondre, HOD and Ms. V.V.Thakare, Assistant Coordinator took efforts to organize this program.

Report

Ours the Computer Science Society of Department of Computer Science was organized One Day Workshop for M.Sc. Students on **"Software Testing"** on dated 14th May. 2022 at 12:00 noon.to 6:00 p.m. in Computer Lab III.

Mr. Pankaj Sangvi, VeerIT Technology, Nagpur, was resource person. In all total 25 students from M.Sc. (Computer Science and Electronics) and 4 Staff members were participated. He covered the content of the syllabus from Software Testing and gave hands on practice of the tools which were used for Software Testing. It was syllabus-oriented sessions to students. Students understood the concepts of Software testing. He also guide regarding carrier and opportunities in software Testing.

To organized the guest lecture Dr. V. S. Tondre, HOD and Ms. V.V. Thakare, Assistant Coordinator, Ms. M.R. Shingane took efforts to organize this program. Ms. Rutuja kundalwal was introduced the guest and Ms. Saloni Shete present the vote of thanks in the program.

Three Day online certified Training Program
on
Artificial intelligence in power electronics – Electric cars
27 th may 2022 - 29 th may 2022

The Electronics department has organised a three-day online certified training programme on A.I. in power electronics-electric cars in collaboration with Kamlesh foundation and Vishwakarma Institute of Technology, Pune from May 27th, 2022 to May 29th, 2022.

Dr D.S. Dhote during the session

Mr. Rajushkar during the session

Day 1 (May 27th, 2022) :-The inauguration of the programme took place at the hands of Dr. Prafullla Wadaskar. Dr. D.S. Dhote delivered a lecture on artificial intelligence in medical electronics. Dr. Rajendra Rajuskar explained the advancement in power electronics. Sri. Nilesh Ghule gave hands-on training on A.I in embedded 'C'.

CERTIFICATE COURSE

2nd April 2022-17th April 2022

Why LaTeX

Latex has become an academic standard for type setting research papers, scientific and technical documents, presentations, books, reports and almost any form of publishing. Latex produce high quality mathematical equations.

REGISTER NOW

Rs. 500/-

(for Brijlal Biyani Science College Students)

Rs. 800/-

(For other College Students)

OBJECTIVES

- Typesetting of journal articles, technical reports, thesis, books and slide presentations.
- Typesetting of complex mathematical formulae.
- Advance type setting of mathematics with AMS -LaTeX.

WHO CAN REGISTER

The post graduate students, researchers, teachers with mathematics subject.
