13	**Activity Report-** The slum area adjacent to the college premises has a population of about 2000. The families living is this area are mostly workers and all of them are migrated from different areas of the state and adjacent state. Their economic level is hand to mouth and literacy level below the level. They do not understand the importance of education. Once they are out of the house, their children are inculcating bad habits. Poverty forced many parents to send their children for work and earn livelihood. The management of the college wanted to execute their social responsibility to educate the children from this slum area. Since 2001 this activity was going on successfully till date. In it as a social responsibility. Muktangan executes their programmes with support from the management, college principal, teachers and students of the college. Children under the project are going trained on vital aspects of personality development like behaviour and etiquette, hygiene, cleanliness, health, good values and habits, social concerns. They are also being given training on art, craft, dance and drama through workshops and cultural programmes We are very happy to report that since its inception, the Muktangan has progressed rapidly both qualitatively and quantitatively. We started with 10 children, but today, our Muktangan has reached its maximum capacity of about 90 students. The response from the parents has been over whelming. They are very eager to enrol their wards in our Muktangan, because of our excellent teachers and convenient location. Initially, it was hard to persuade the parents to send their children to school, since their meager earnings through petty household work added to the family kitty. However, our counsellors ultimately succeeded in persuading these poor illiterate parents of the long-term benefit of education. **1.** This year the volunteers enrolled in the "Earn while you learn Scheme" were selected under the guidance of in-charge of Muktangan. Initially they visit the slum area and enroll the children for Muktangan. **2.** Every Sunday the enrolled children from the slum area are called at 8.00 am within the college campus for the informal school. **3.** They are taught subjects like English, Math's, Computer Science and Science. **4.** Selected volunteers work as their teachers. **5.** Classes are taken from 8.00 am to 11.00 am only on Sundays. **6.** To enhance their personality and overall development, the children are guided through different activities like games, Drama, soft skill and various competitions etc.

	The students are made aware about health and hygiene, cleanliness, environment etc. **7.** Every student has given note books, pen, pencil, eraser, skech pen, drawing materials and school materials by the institution. **Various activities/competitions carried by Muktangan during year 2019-2020:-** • Tanha Pola (Bullock decoration) • Rakhi Making competition • Hand wring competition • Drawing competition • Teacher day celebration. • Rangoli competition. • Dress competition. • At the end of session in the social gathering" Dance, Drama, Song, etc. **Muktangan Library:** In order to inculcate the habit of reading among these students, a separate library was there. Muktangan library is the most important activity as it reflects the interest of students towards reading. The library has approximately 200 to 300 books. The student in-charge is nominated for the distribution of books to the children. **Gathering and farewell function:** At the end of the session social gathering and farewell function is organized. The students of Muktangan take part in various cultural activities like dance, singing song, drama etc.
14	**Outcome:** **1.** The Muktangan would generate the interest of parents and children in getting educated and understanding value of education. **2.** The Muktangan would also help in reducing child labour and restoring their Right to Education, thereby giving them a brighter future. **Children of slum area:** • It helped them to improve their writing and grammer. • It made them aware regarding cleanliness, health and hygiene. • It helped them to remove the fear of English, Science and Maths, and increased their interest within the subject. It increased the confidence and developed their personality through various competitions. **Volunteers of Earn while you learn scheme:** • Those students who were working as teachers of muktangan learned the skill

	of teaching and increased their ability to work with inclusive programs. • It increased the Social awareness among the students. • The students of college got good opportunity through Muktangan to give their service to the society and also it helped them to earn while getting education. Thus the Muktangan scheme has benefited the children of the slum as well as college students.

Earn While You Learn Scheme

Introduction

This earn while you learn scheme aims towards the fulfillment of the aim and object of the college of helping the financially weak students to continue their education and to help them to procure study material in addition to providing the best education. This also aims towards cultivating in students the moral and ethical value of work culture during the period of education. By this scheme the college management also shares its responsibility towards upliftment of poor and needy students by providing them the monitory help for the work done in the college.

Doing a part time job and supporting the family and self education is the basic requirement in socio economically backward students. But this restricts the students from pursuing regular education and thus the dropout rate of education increases. As a part of its vision the college has implemented the scheme of ***"Earn While You Learn"*** *to overcome this. The scheme was first introduced in 2005 which was flashed on notice board of college, mentioning the desire of the college to help the needy students.*

The Earn while learn programme provides opportunities to the students to earn while they are learning through the part-time jobs and thus preparing them to shoulder the responsibility of earning with relative ease.The students were paid Rs.30 for maximum 3 hours per day later in 2017-18 the rate of remuneration were increased to Rs.50 per day so that student should ***EARN Rs.1200/- per month.***

Various part-time job opportunities are provided to the students within the campus.In the part-time job students have to work in Library, Computer,Chemistry,Physics,Mathematics,Botany,Zoology,Electronics, B.C.A.,Statistics as well as Commerce and management departments also as student teachers of Muktangan activity of the college.

Also, the college provides its budding entrepreneurs with necessary guidance and resources to initiate and run their entrepreneurial ventures as well as provides for incubation of their business ideas.

The Practice

The professor incharge of the Earn while you learn scheme takes initiative in the assessment of the poor and needy students and then informs the principal of the college about the approximate requirement of the job work and financial support required during the year.During the 1st month of the academic year the professor in-charge flashes the notice for the call of applications from the students. The students from the morning shift are asked to work in the various departments during afternoon hours while the student from noon shift are allowed to work in the various departments during morning hours. The students thereafter report to their work places and the proper attendance and presence is maintained and documented. The monthly earnings are calculated after each month and the remuneration is paid to the students at the earliest.

This earns and learn practice lead to the identification of the socio economic weaker students and helps them in every means to share their monitory needs for education. It has tremendous effect on the students which made them self reliant, confident and eager to work with interest.
